INSTAPAY

Instapay is a mobile payment app that allows people to easily and quickly pay at sit down restaurants.

APP FEATURES

EASY PAYMENT

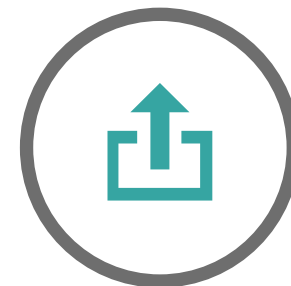

SPLITTING BILL

PROMOTIONS

RECEIPT HISTORY

EXPORT/SHARE

CURRENT ISSUE

Tables are being filled up, orders are being taken, waiters are putting down food - its total chaos in the restaurant. Trying to flag down a waiter to pay the bill can be quite a hassle. Once you've got their attention, you have to wait for them to bring you the machine!

DANIELLE HUNTER

28, EXECUTIVE ASSISTANT, TORONTO

TIME EFFICIENT

Danielle wants to enjoy her lunch break, but she always has to get back to work early. She wants to pay quickly & easily so she can get back on time without feeling rushed.

EXPENSE TRACKING

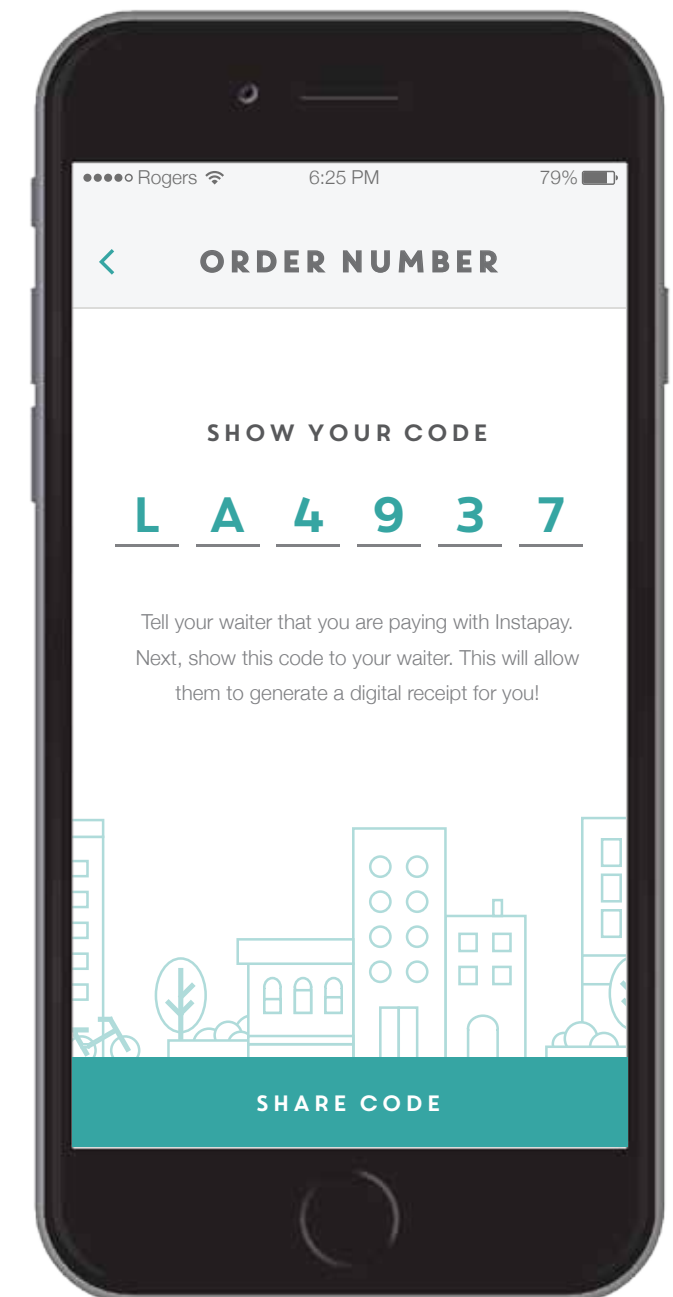

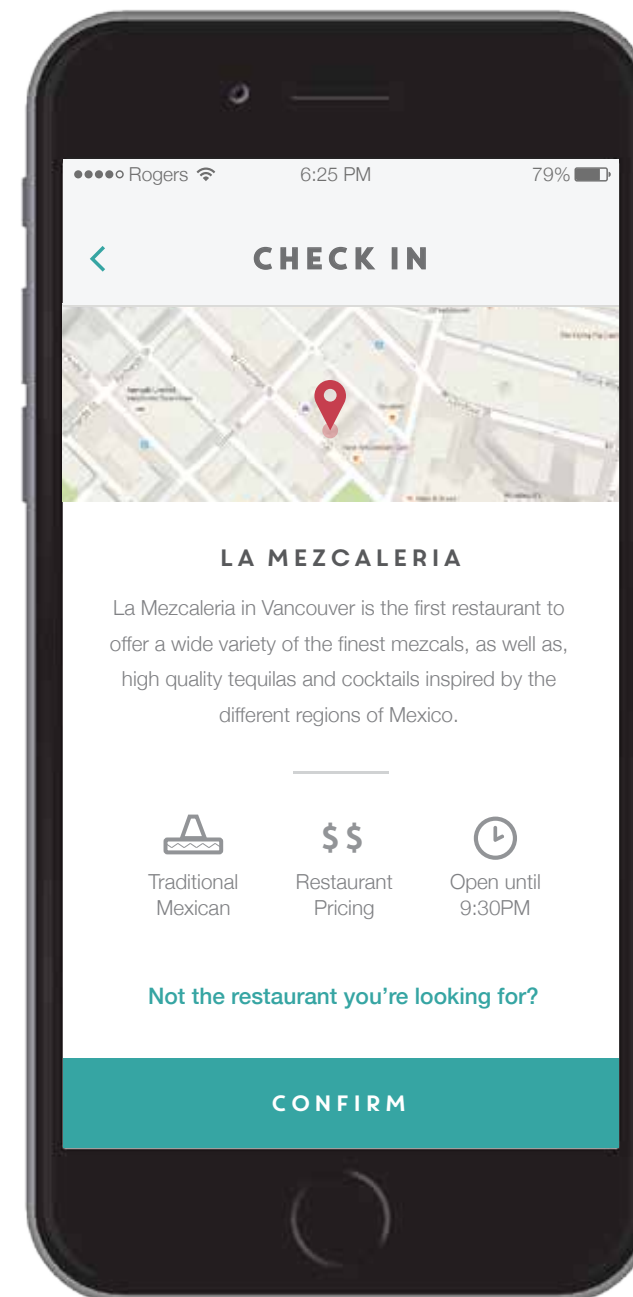

Danielle travels semi-frequently on company trips. She needs to keep track of dining receipts for her expense reports. She wants to save her receipts and be able to export them.

CHECK IN

Ready to eat? Check into your desired restaurant. Your phone will automatically detect your location. Confirm your restaurant and wait to be seated.

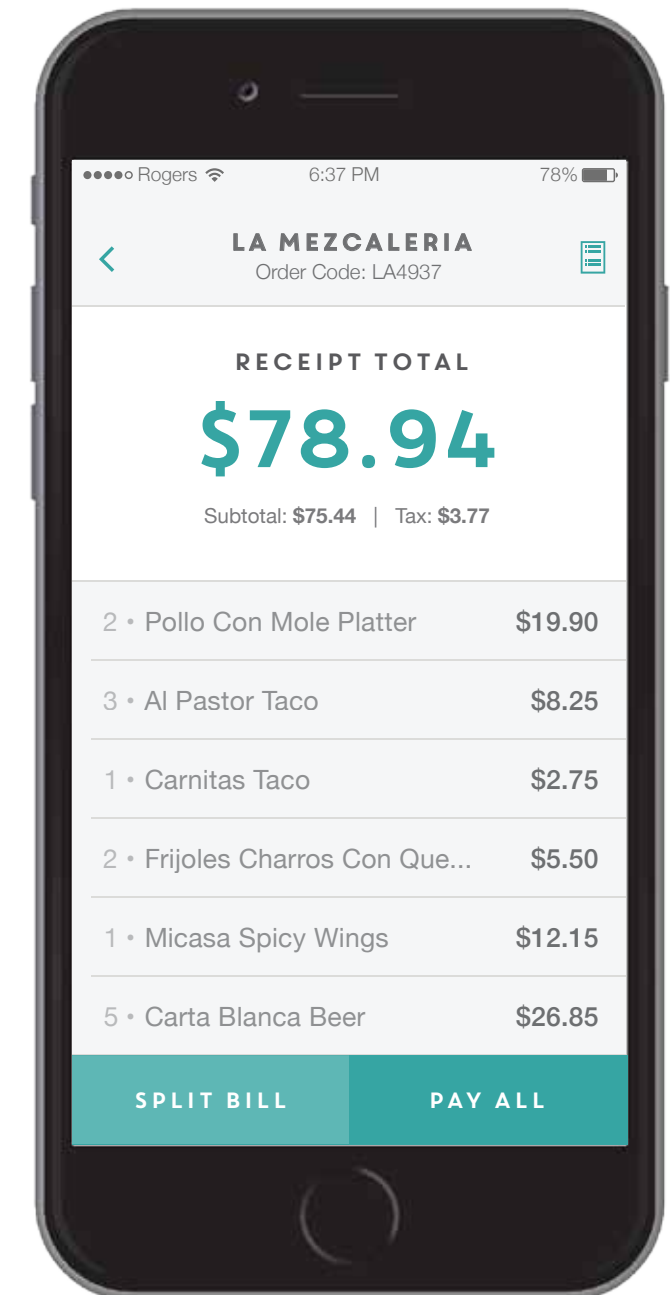

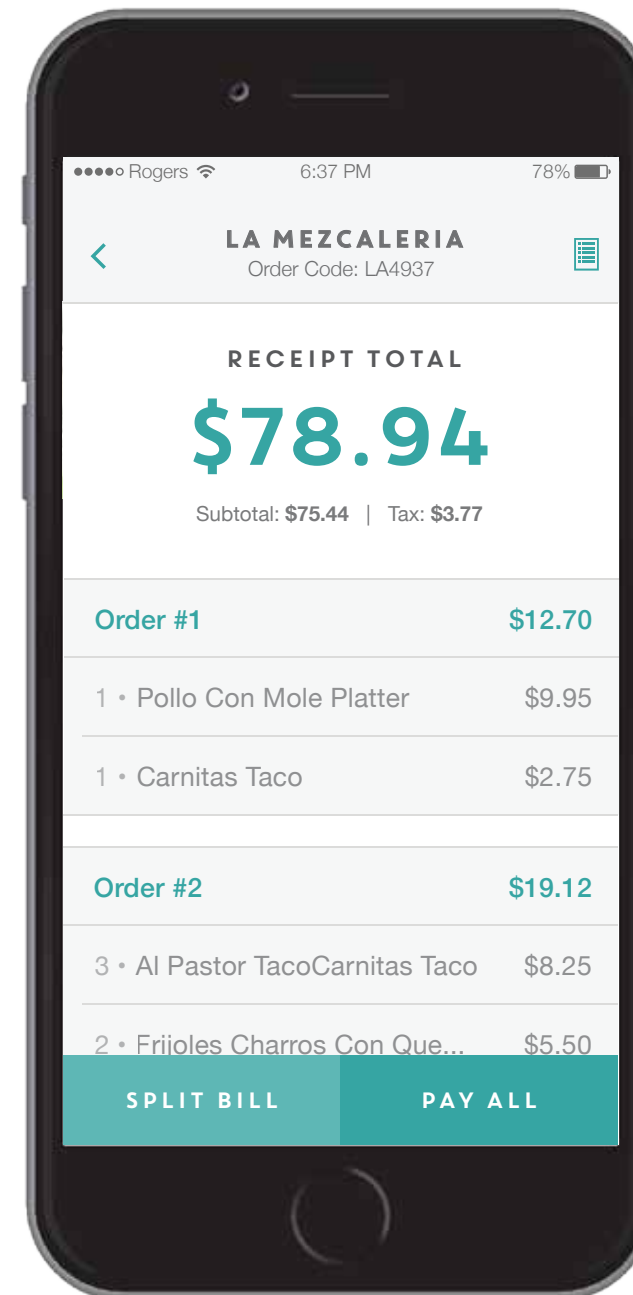

Once you've checked in, the app will give you a code - show the code to the server when your ready to order.

VIEW ORDER

The code will generate a digital receipt for you to see all the food items you've ordered! Your order total will update as new items are added.

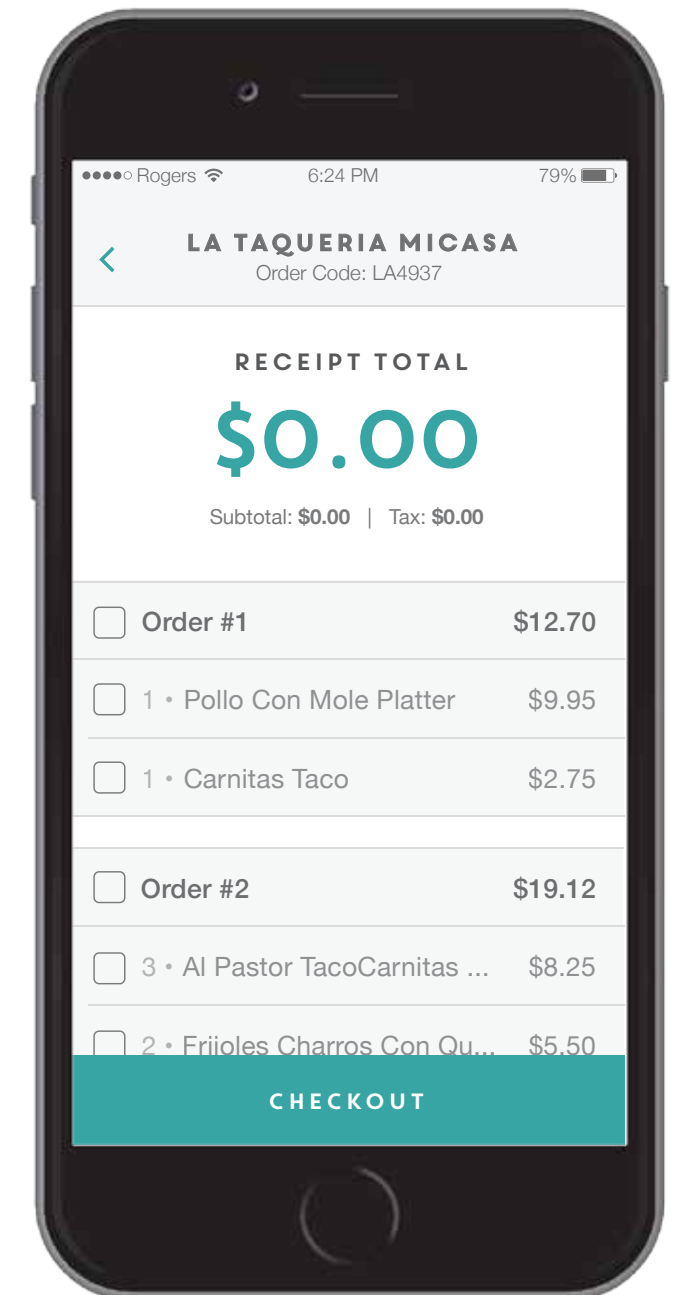

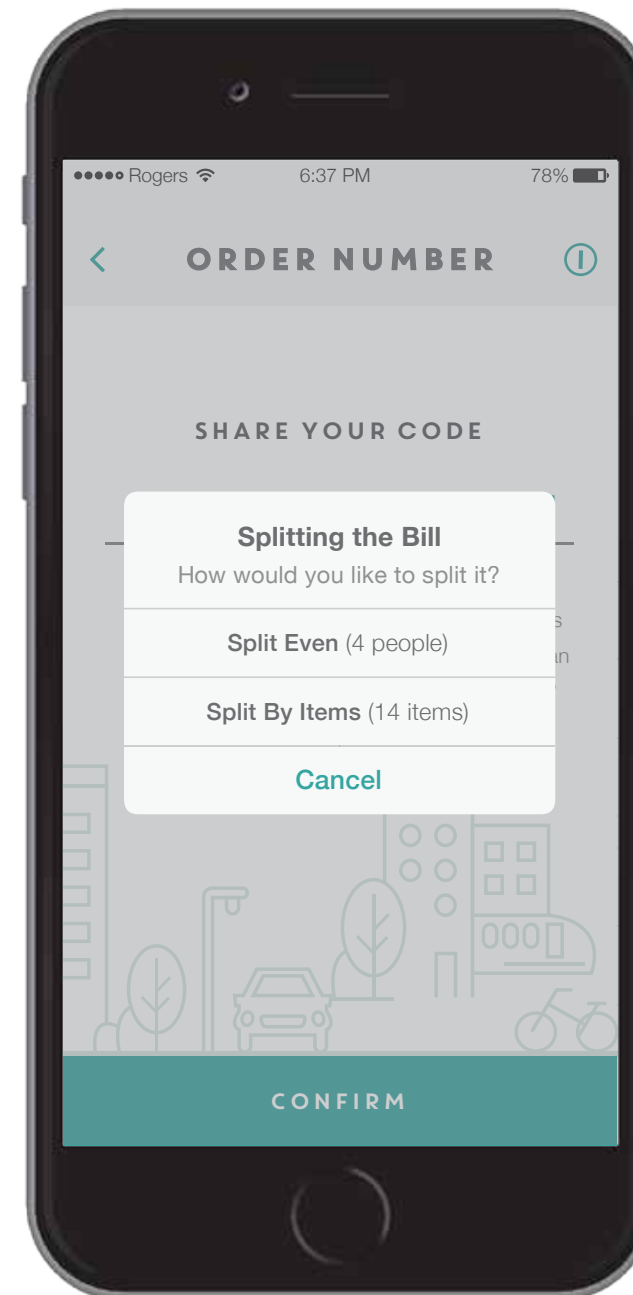

Toggle how you want to view your bill. View by a list of each person's order or the number or orders for each item

SPLIT THE BILL

Split the bill with friends. Is each person paying for their own portion of the meal? Whose sharing the appetizer? Instpay can deal with all of that.

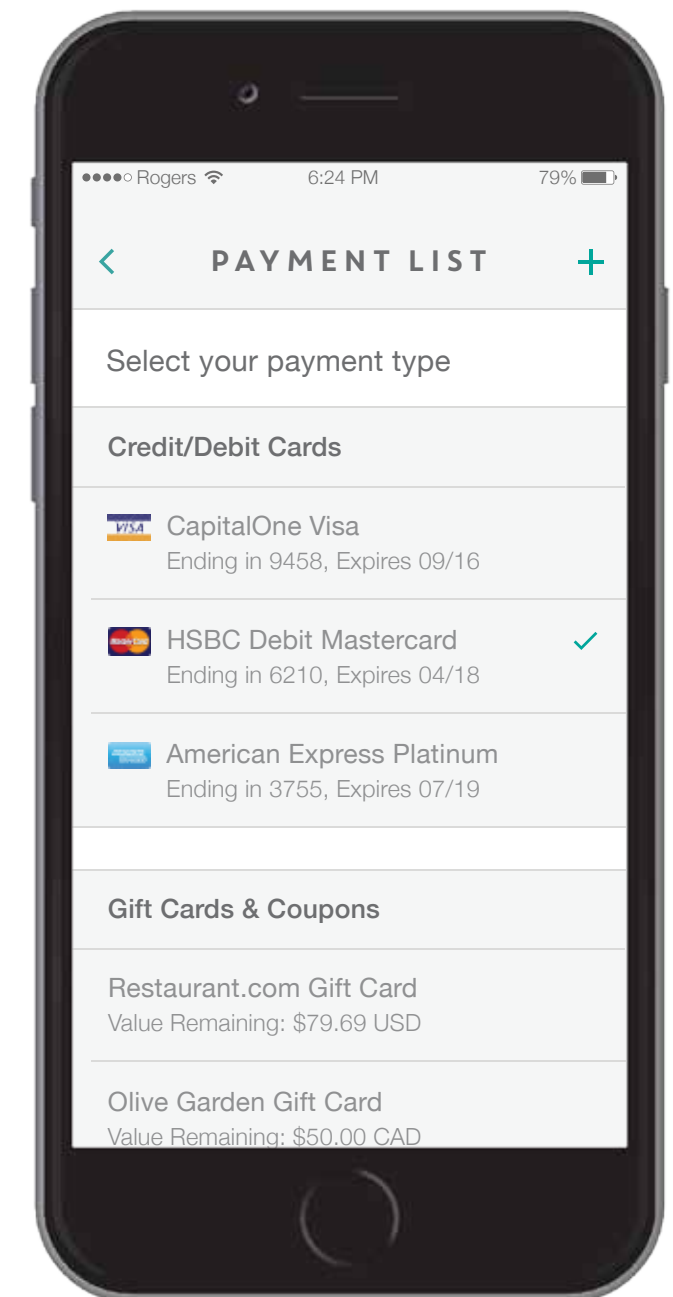

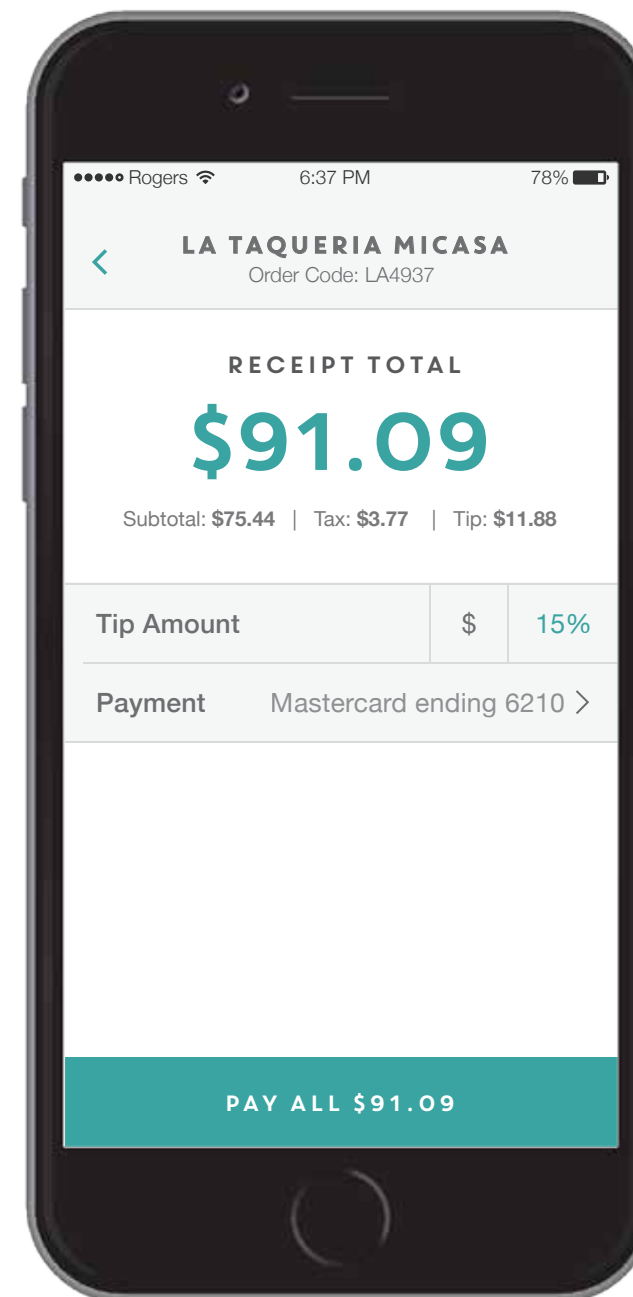

Check off the items that you're going to pay for or split the bill evenly. Instapay will calculate your total for you.

EASY PAYMENT

You don't have to bring your wallet out anymore!
Store your credit cards on Instapay for fast, easy,
and secure electronic transactions.

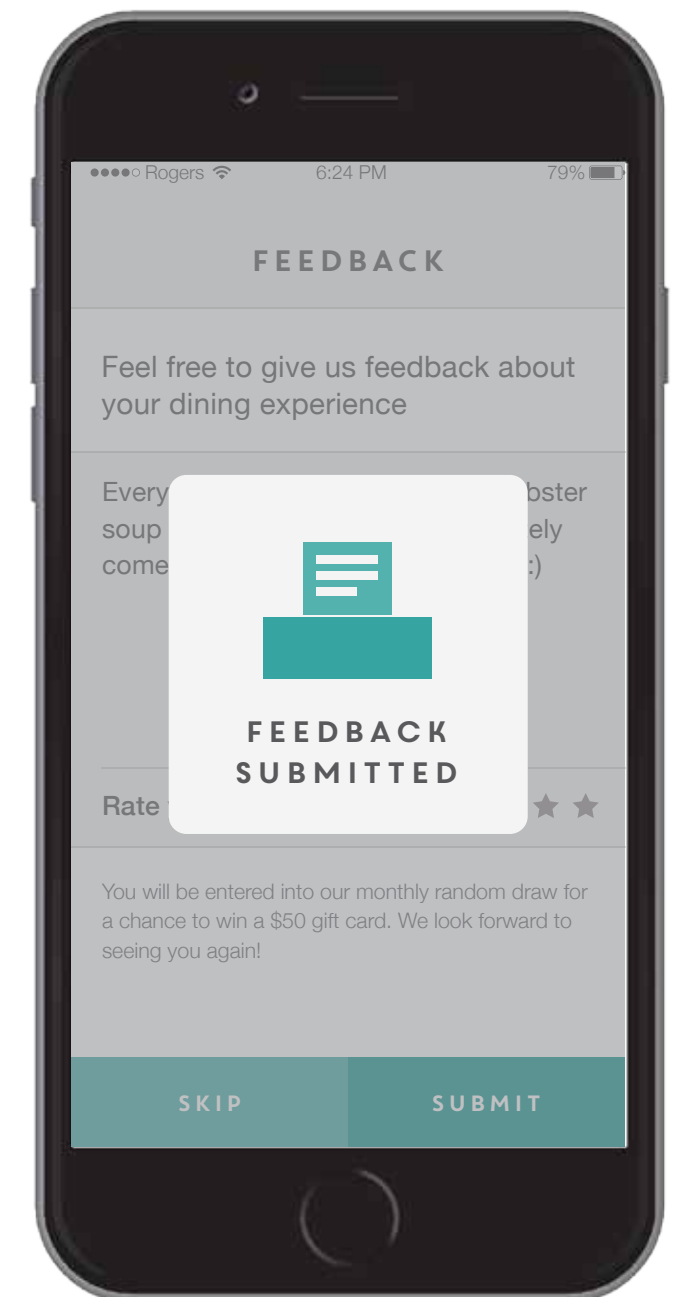

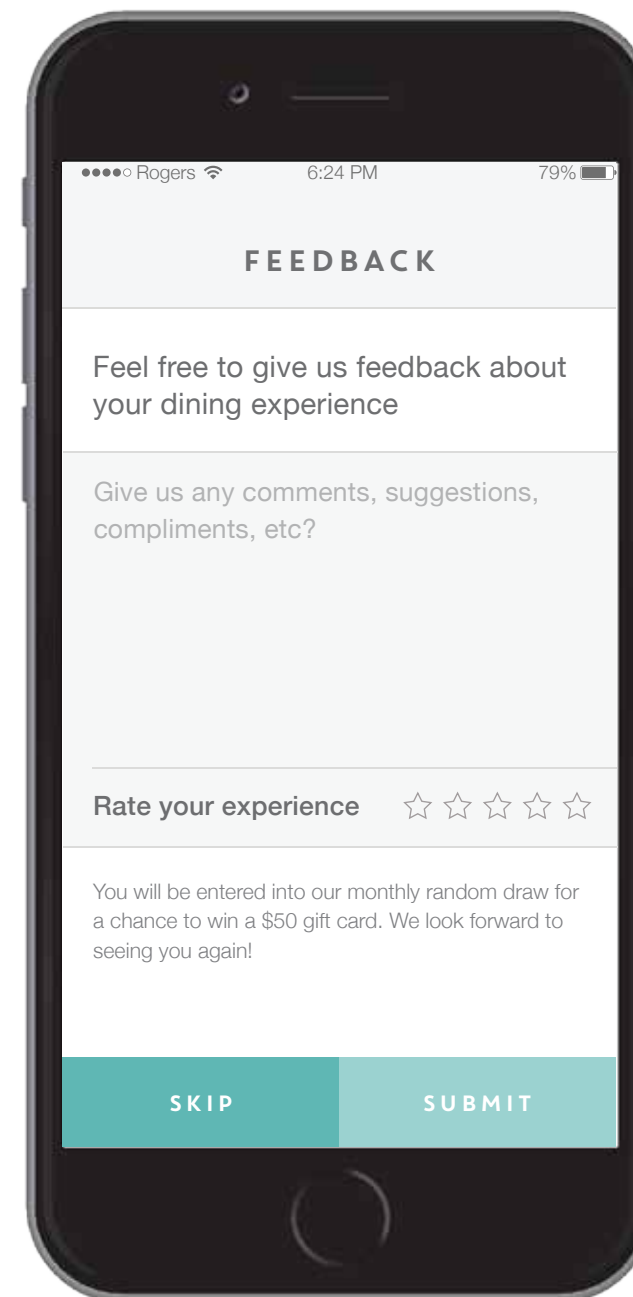

Instapay also supports alternative payment methods
including Apple Wallet, Paypal, and gift cards.

FEEDBACK

Satisfied and happy? At the end of each meal, you can type and submit compliments, feedback, or general comments to the restaurant.

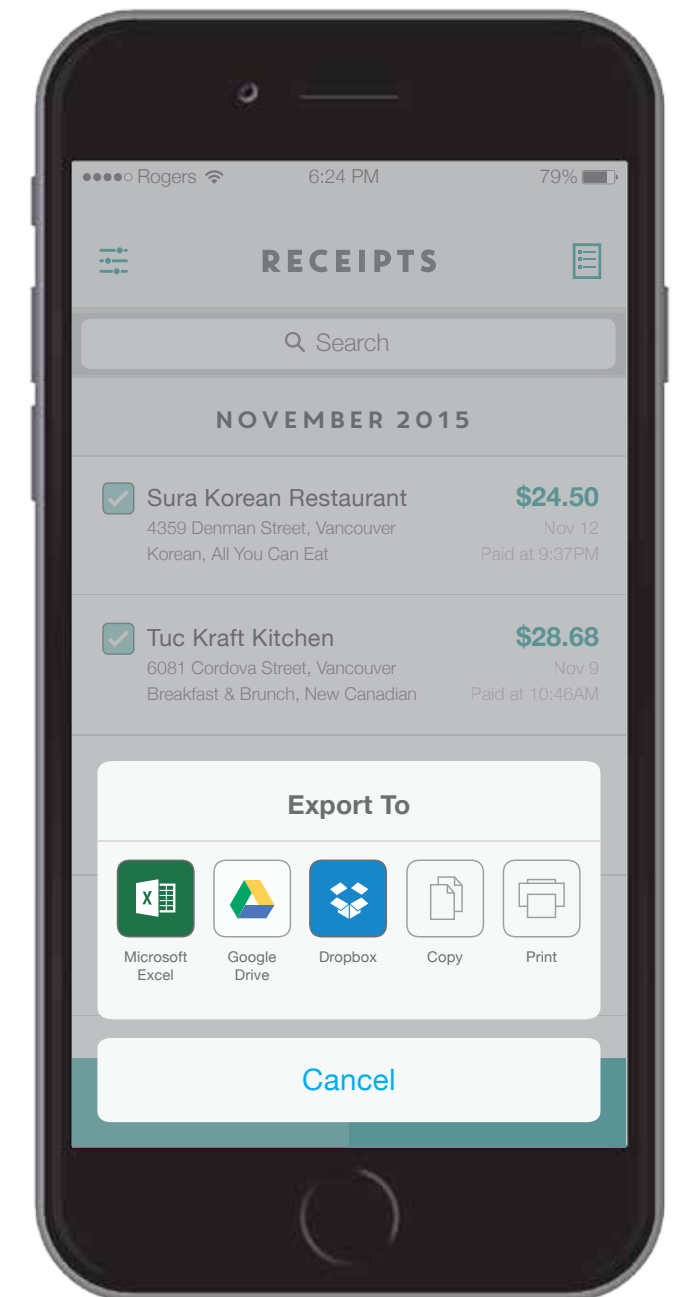

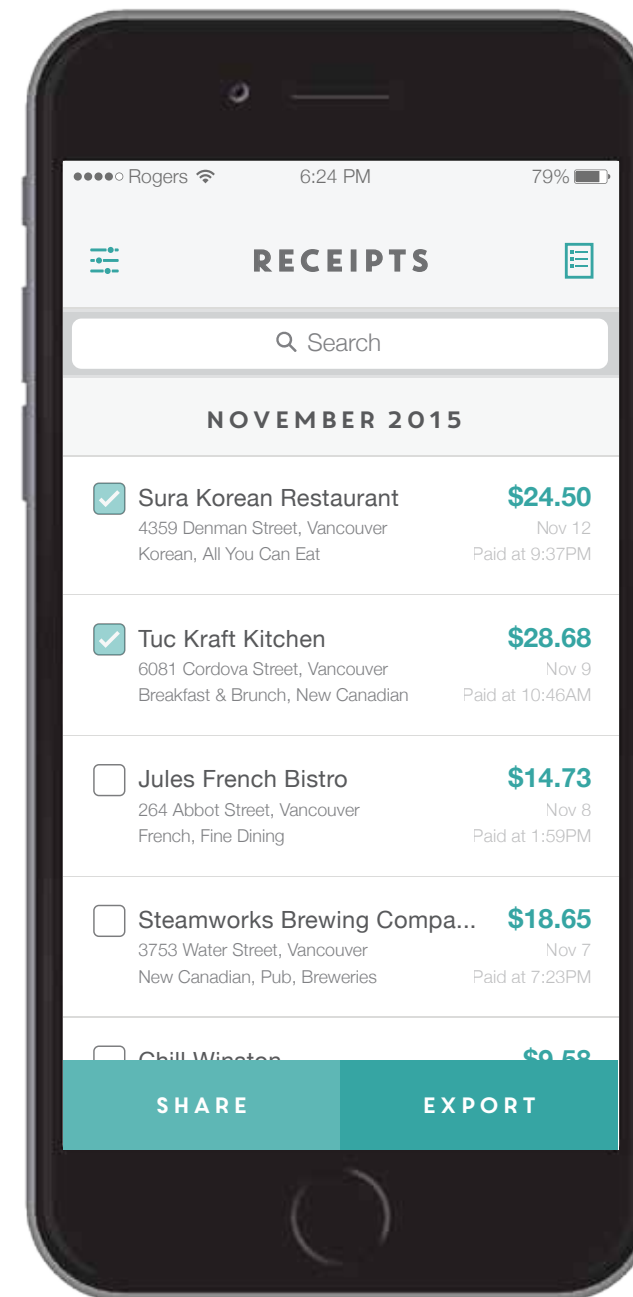

As a reward, you will be entered into a monthly draw to win various prizes offered by restaurants!

RECEIPT TRACKING

Go paperless with accurate, verified data. Instapay will track your receipts without the added pain of manual data-entry. Once you have paid for your bill, it will be stored into the app.

Breeze through your expense reports by exporting you're receipts to Excel, Google Drive, and more.

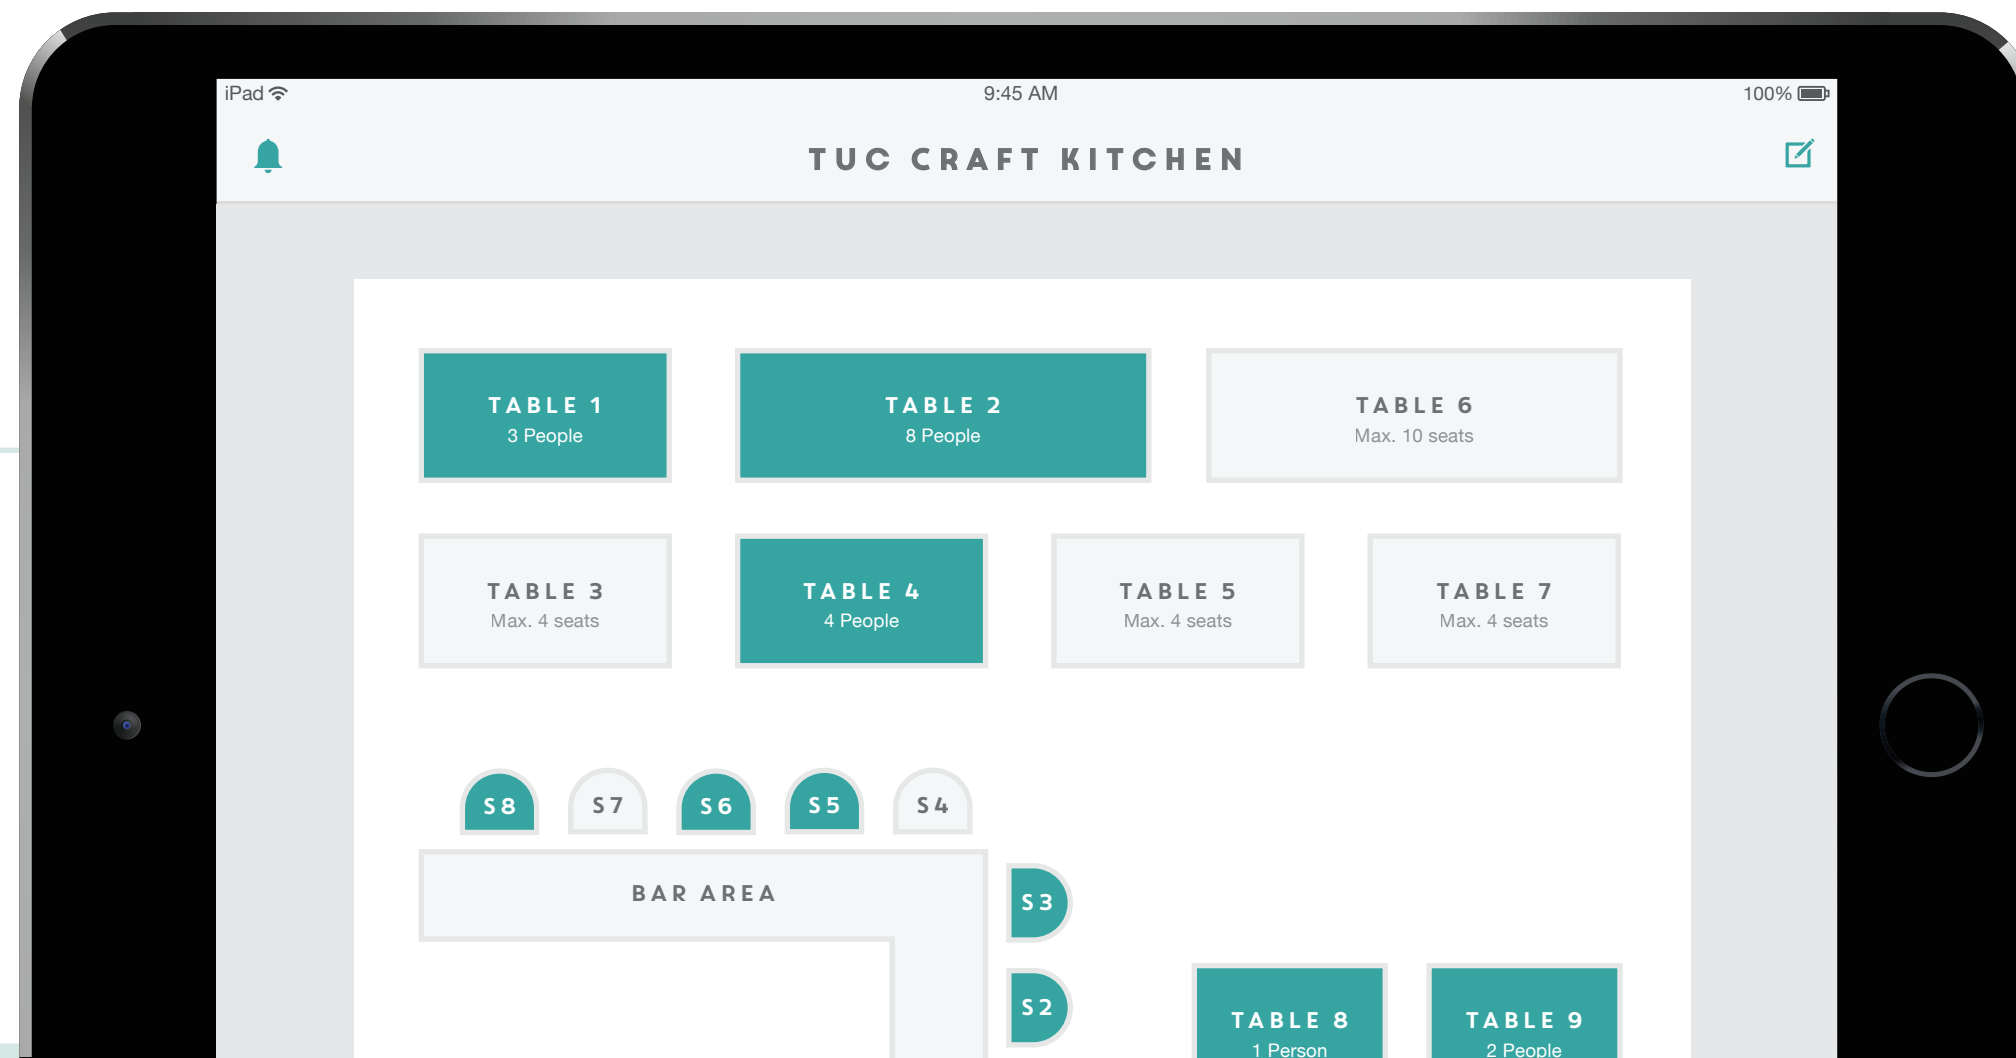

WAIT THERE'S MORE!

INSTAPAY RESTAURANT

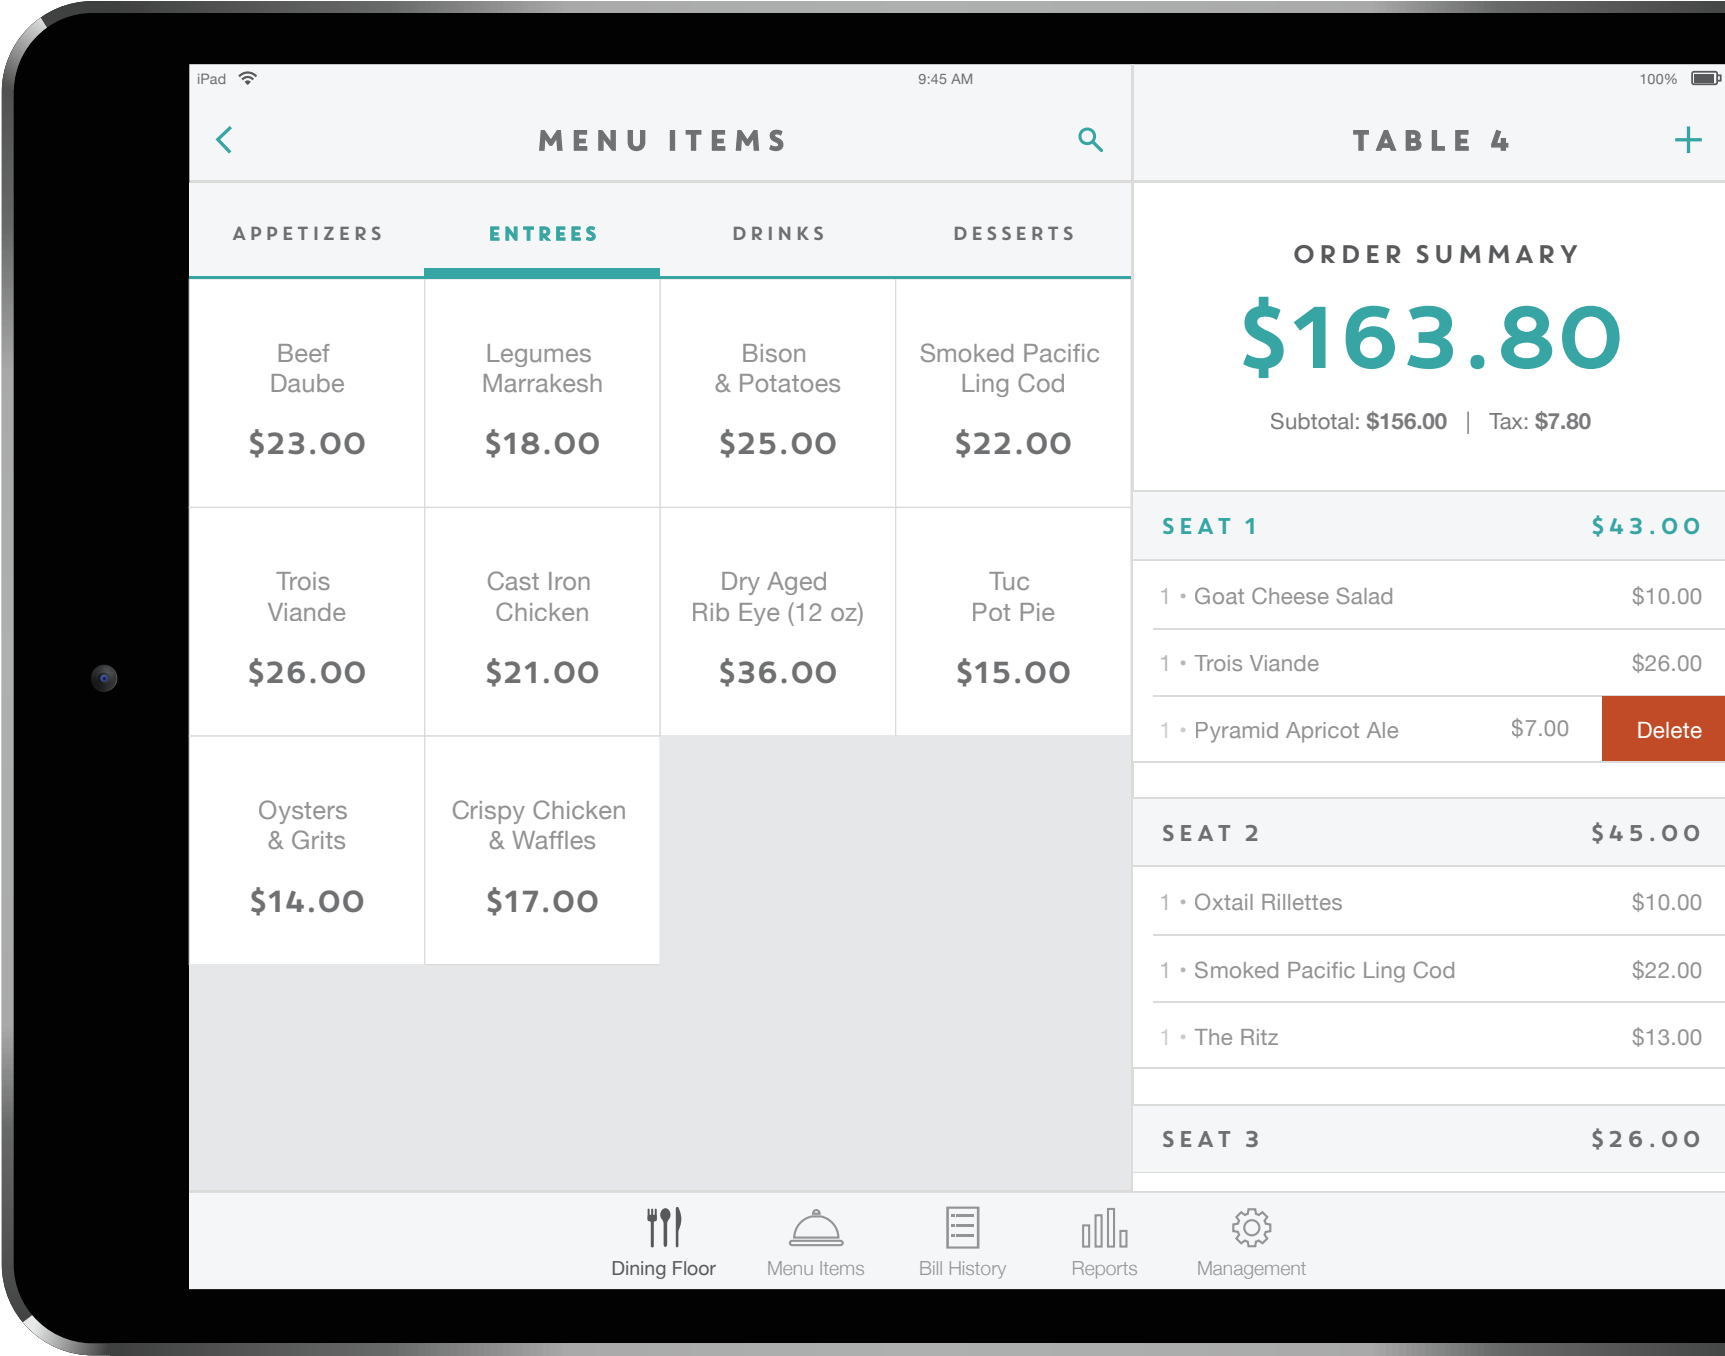

Instapay Restaurant is a mobile POS system app that allows restaurants to manage food orders, show open tables, keep track of transactions and provide actionable data & statistics.

ENTER ORDERS

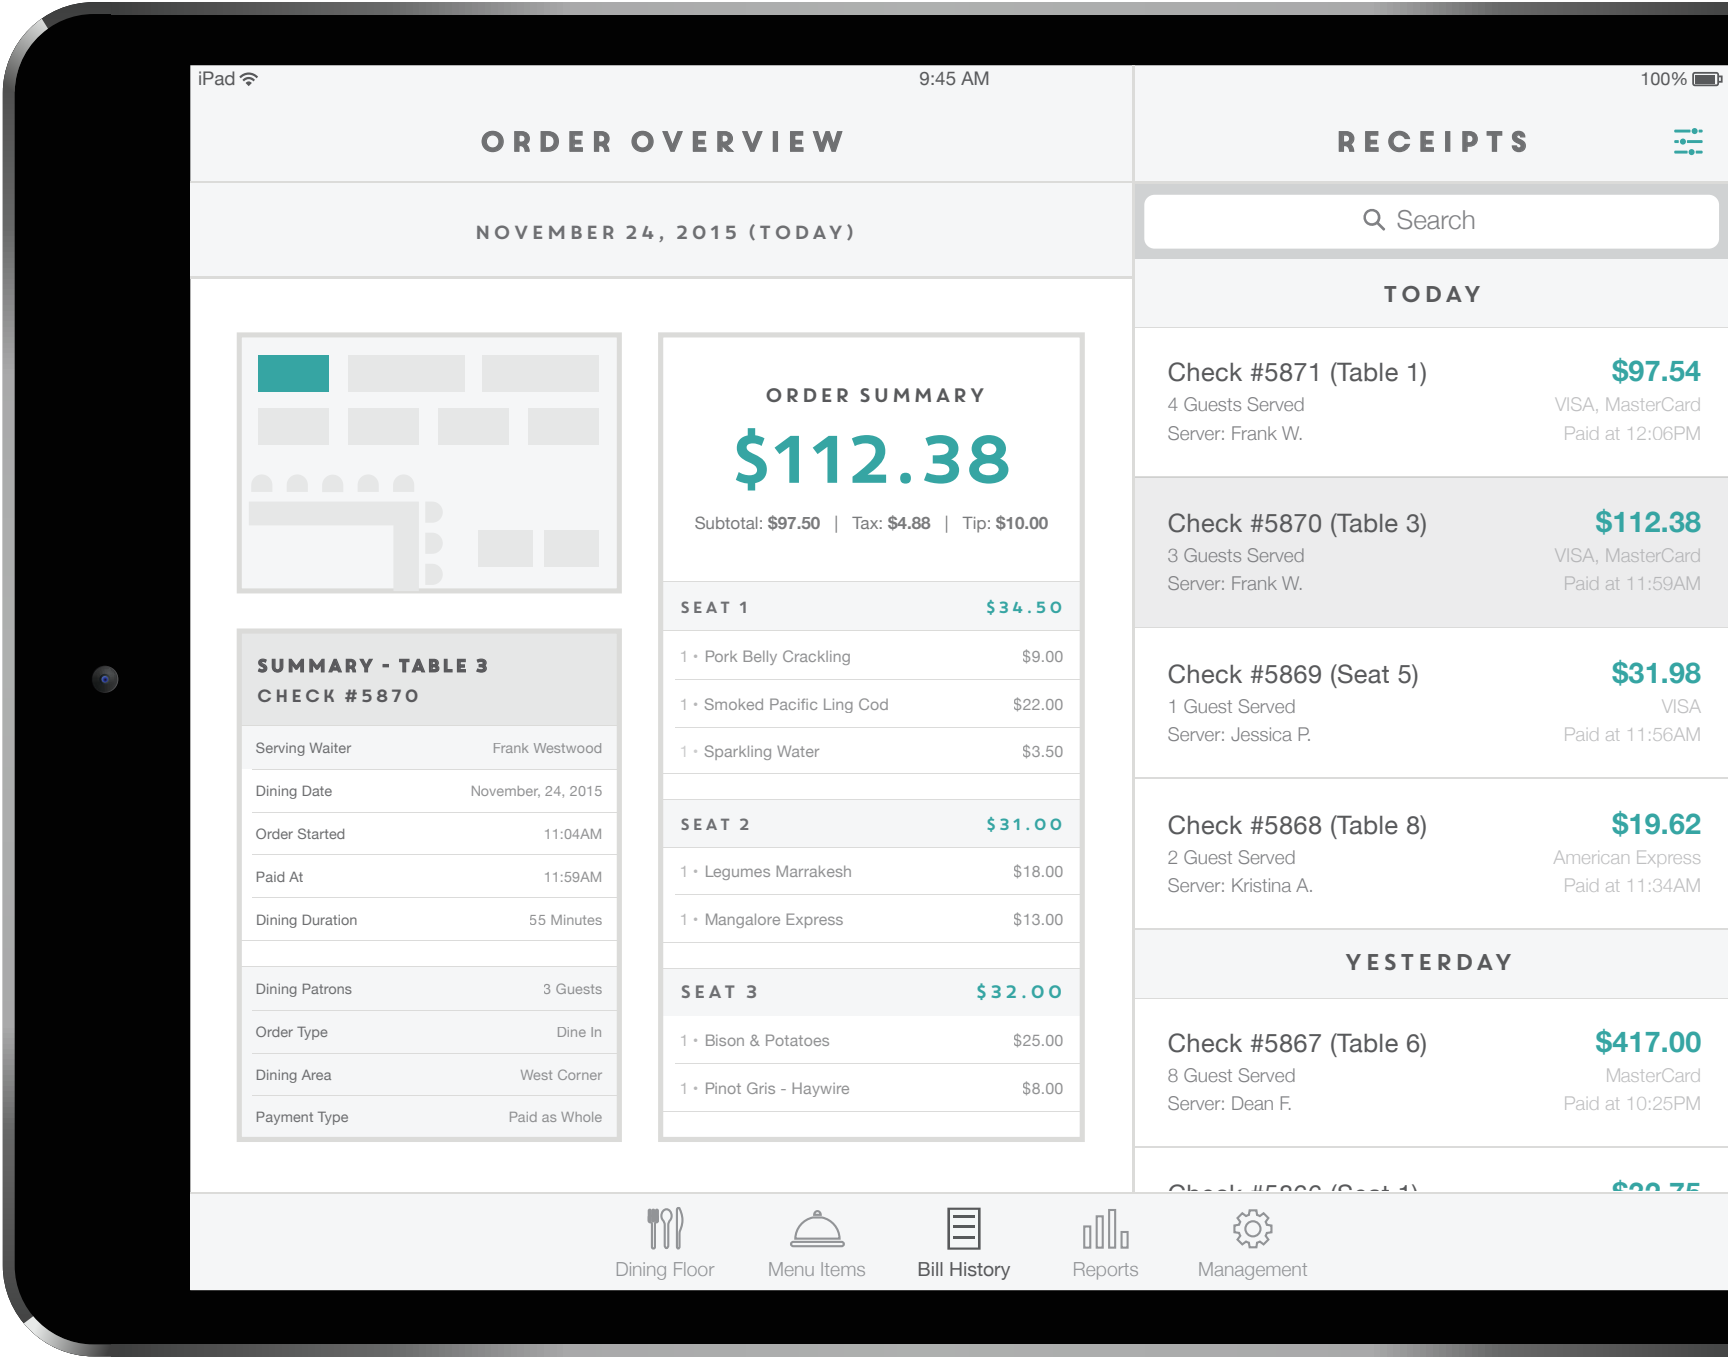

It's as easy as tap and go! Each table order is divided by seat. Select a table seat, tap on the desired menu items and watch them added to the order.

Making edits to orders are just as easy. Hold and drag to move items around and swipe left to delete the item.

BILL HISTORY

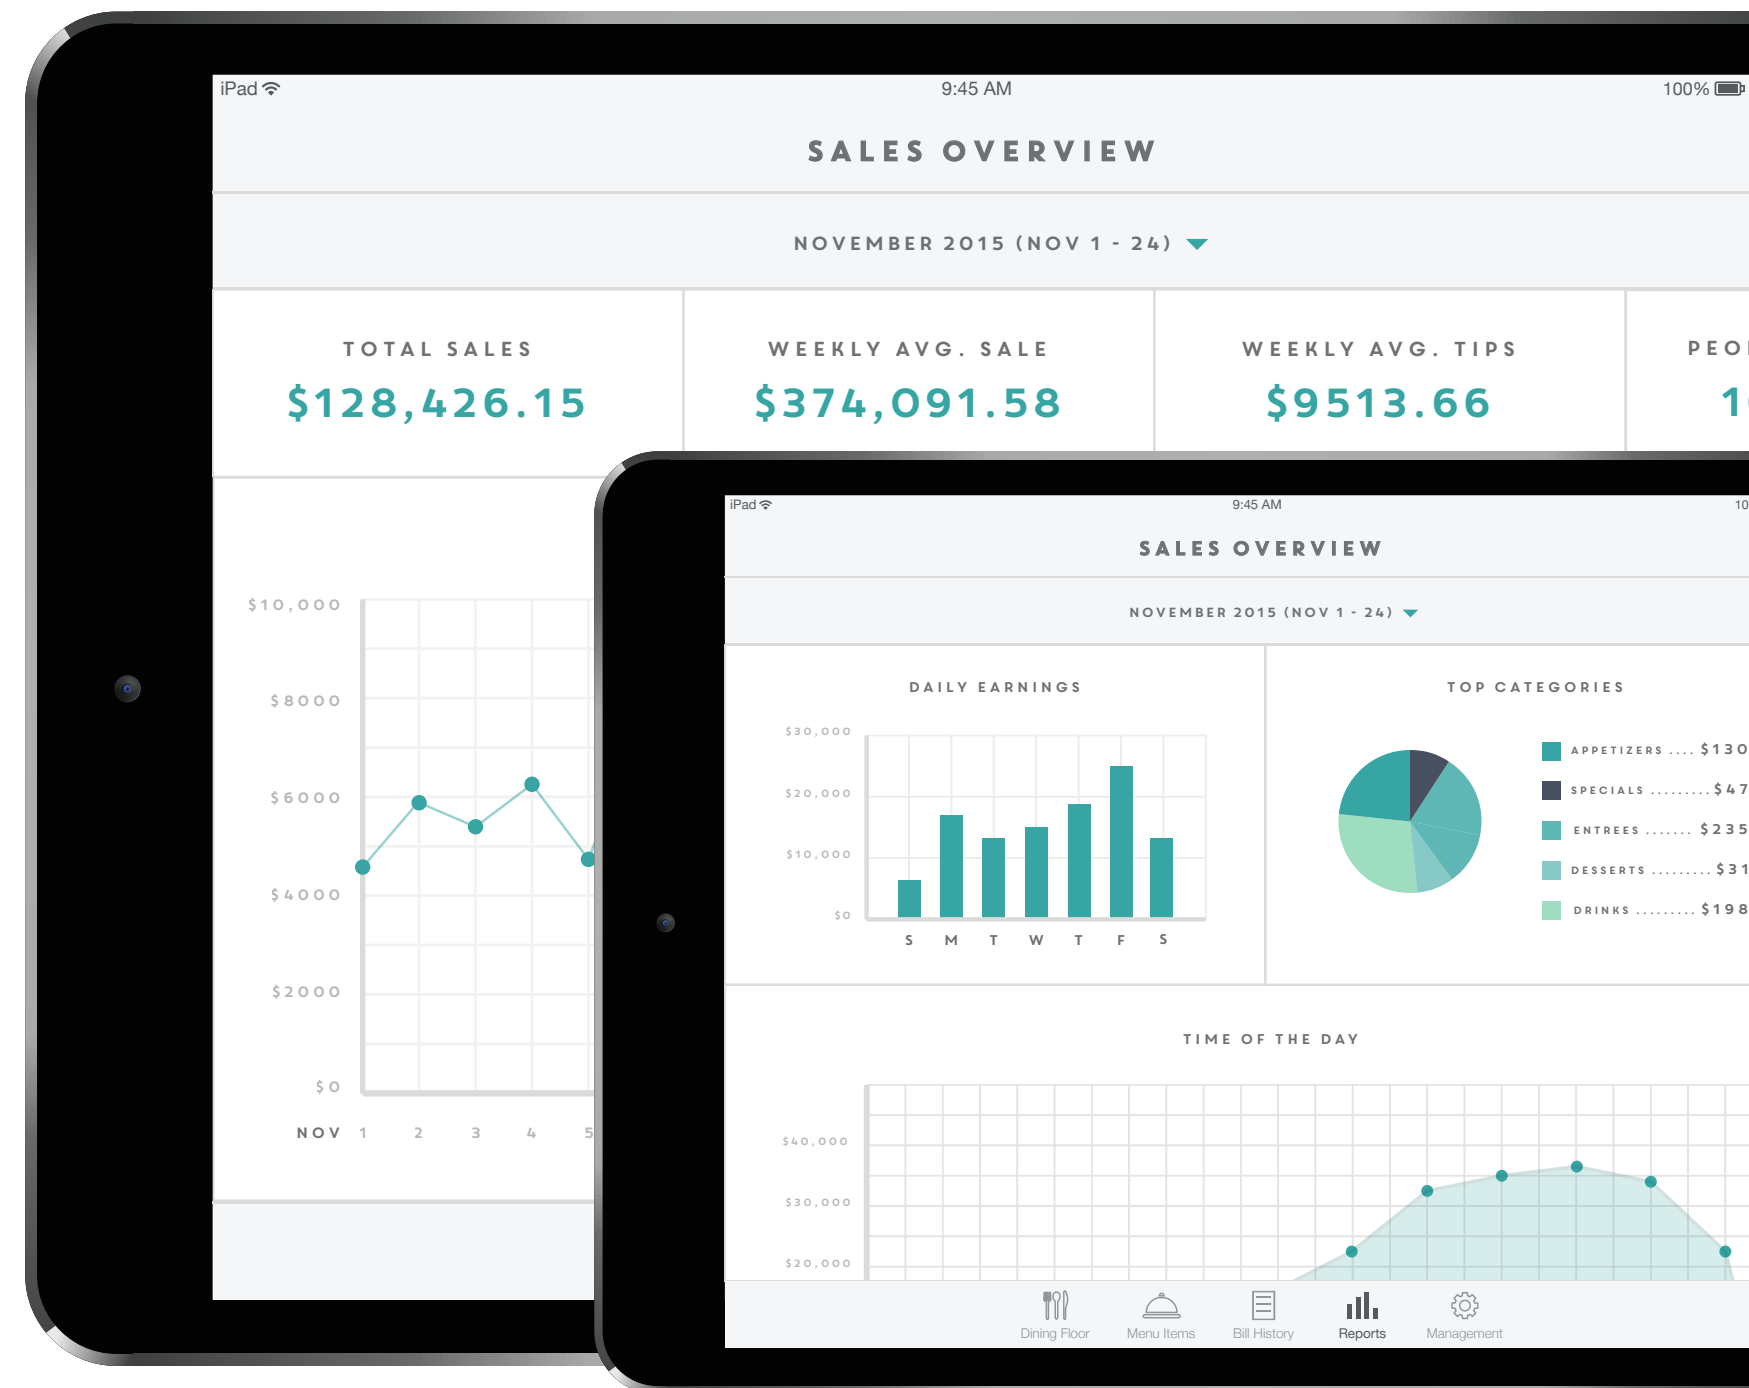

Keep track of your restaurant's business at all times. You can search for and check any paid transactions. Instapay Restaurant provides all payment details and check summary.

INSIGHT REPORT

Run your business in real time. When your work week is over, view your day-to-day reports to see how well your business is doing.

Our in-built analytics and custom reports breaks down your total sales to show you how it all adds up.
